

AssetTraks Equals Optimum Control

AssetTraks from On-Board Communications provides the latest in proven technologies – Global Positioning Satellite (GPS) Systems, Wireless Communications, and the Internet for easy, optimum viewing, tracking, monitoring, and management of equipment assets.

View your assets on high quality maps that allow you to zoom into street level locations. All you need is a browser and Internet connection to view and manage your remote assets – one at a time, or all at once.

SMO206

AssetTraks™ delivers affordable, state-of-the-art Asset Management

AssetTraks™
Valuable Asset Protection System

Your On-Board Communications™ Asset and Time Management Systems target ROI, ensure asset visibility, maximize billing, extend product life plus reinforce asset security

AssetTraks™

Powerful...Flexible...Affordable

AssetTraks is the number one solution for managing and protecting your assets for a low annual fee.

With AssetTraks, you know where your asset is at any time and can find it easily if it's missing or stolen. You can keep track of engine hours for billing or maintenance purposes. You will have data at your fingertips to help you ensure profits and better manage your business.

Let On-Board show you how customers use AssetTraks to manage company assets and benefit with a quick consistent return on investment.

Streamline Asset Management and Theft Control:

- View the location of equipment at any time from any web-enabled PC.
- Remotely activate the optional starter disable feature in the event the asset is missing or stolen.
- Quickly initiate "stolen mode" without police or third party involvement.
- Establish a Geo-Fence and know immediately when the asset crosses the set boundary.
- Receive email alerts on Geo-Fence crossings, movement of stationary assets, or scheduled maintenance events.

Reduce costs:

- Eliminate unauthorized asset use.
- Streamline maintenance schedules.
- Optimize equipment utilization.

Feature Highlights — *continued*

- Nationwide Tracking, plus Canada and Mexico
- Address Locator
- Easy to Use
- Easy installation on any asset
- Intuitive Internet-based user interface
- Email notification – to desktop or any mobile wireless device

ServiceTraks

ServiceTraks is a low cost feature added to AssetTraks to monitor hours and aid in extending the life of your assets.

AssetTraks is one of the smallest wireless/GPS tracking products on the market today. The OBC9000 measures just 1 x 2.5 x 3.5 inches.

Increase sales:

- Lease or rent with the comfort of knowing you can easily locate an asset at any time.
- Accurately monitor rental hours ensuring maximum billing revenue.

Feature Highlights

- Intelligent GPS reporting
- Flexible engine hours reporting
- Immediate location and status request on demand
- Exception reporting
- Ignition on-off reporting
- Geo-Fencing
- Street level mapping
- Real-time and historical reports – up to one year in arrears.

AssetTraks™
Valuable Asset Protection System

With ServiceTraks you can:

- Establish on-line maintenance schedules by tracking hours of asset usage.
- Know when maintenance thresholds are met through email notification.
- Track hours of equipment usage to invoice renter/lessee more accurately.

Other Optional Features Include:

- Remote starter disable
- Battery back-up*
- Motion sensor*
- Store and forward capability*
- Sensor ports available for customer defined applications*

*OBC9000 only
