

CarTraks virtually eliminates stolen or missing vehicles while providing a new level of oversight to monitor the well-being of family members and loved-ones.

All you need is an Internet connection and a browser to view and monitor your vehicles' activities. Utilizing the largest seamless coverage network in North America, you can locate and view any of your vehicles on high quality maps that allow you to zoom in to street level locations. We provide:

- History tracking to easily identify where your vehicle has been
- Exception reports upon vehicle leaving and reentering Geo-Fence area
- Real-time reports for immediate location and status requests on demand

Street-Level Mapping

Actual Size: 1.5 x 2.5 x 5 inches

Accomplishments Breed Success

The On-Board Communications' management team brings over 100 years experience and innovation in product and network development including intelligent wireless mobile communications, emergency dispatch, fleet management and mobile asset-tracking solutions. The team has pioneered development in enhanced cellular network and GPS for emergency service, roadside assistance, information, route guidance, two-way messaging and theft detection/tracking.

CarTraks is your personal vehicle monitoring system

Wherever your vehicle goes, CarTraks goes too. They're a perfect match, ensuring theft protection, family safety, personal convenience and access to emergency and information services whenever and wherever you go.

CarTraks™ delivers affordable safety, security and convenience

Your CarTraks Vehicle Oversight System gives you state-of-the-art theft prevention, vehicle monitoring, access control and emergency assistance in one easy-to-use package

CarTraks™
Personal Vehicle Monitoring System

CarTraks™

Personal Vehicle Monitoring System

CarTraks™ by On-Board Communications combines GPS (Global Positioning System), Communications and Internet technologies to give you a powerful, state-of-the-art means to ensure your vehicle's security and achieve safety and convenience for yourself and loved-ones.

With CarTraks, you can stop worrying about your vehicle being stolen, where your teenagers are when they have the car, or where you left it in the parking garage. CarTraks incorporates a package of powerful GPS features that place theft prevention, activity monitoring, access and emergency assistance under your control. CarTraks' intuitive web-based interface and interactive voice response system in combination

with your wireless phone activates CarTraks' tracking, monitoring, convenience and assistance features.

Economically take advantage of CarTraks GPS benefits

Use a powerful, effective theft prevention and recovery system

- Universal GPS coverage throughout the United States, Canada and Mexico
- In the event of the theft of your vehicle, simple voice or web-based guidance provides police with exact location of moving, parked or hidden vehicle
- CarTraks GPS system enhances rapid recovery within hours, significantly reducing the risk that your car is unrecoverable
- Quick recovery often minimizes vehicle damage
- CarTraks installation may entitle you to a car insurance discount (varies by insurance company and state)

Help young drivers behave responsibly

Using your computer, you can monitor vehicle activity at any time of the day or night.

- Know the exact location of family members should they need assistance
- Use CarTraks' "Geo-Fencing" feature to set travel boundaries that match the level of trust young drivers have earned
- Monitor time at locations and speed of vehicle

Take the anxiety out of inconveniences

Use your phone or wireless phone to call CarTraks interactive voice response system to:

- Unlock doors if you have locked your keys in the car
- Honk the horn or flash the lights if you have lost your car in a parking lot

CarTraks gives you more control over your safety and security

Enhance your safety and security in emergency situations

- Have a family member access the CarTraks web-based monitoring system to identify your vehicle's location and summon help
- or
- Contact the CarTraks interactive voice response system to determine your location and summon assistance
 - Speed the arrival of emergency help or roadside assistance, if needed
